Sharing Wisdom

Dear Ladies,

At November's *Afternoon Tea* Women's Forum will welcome an exceptional woman who will grace our program with her legendary presence. She will tell us all about her life and her incredibly famous family, invite you to a Q&A and even pose with you for pictures. She was such an influencer that Art, Architecture, Literature, Music and Fashion continue to tap into the aesthetic that evolved during her reign.

This month our virtual meeting will take place on  
Thursday 11/10 at 1pm.

The Luncheon:

~At 42 widowed Queen Victoria grieved deeply over the loss of her beloved Prince Albert. She went off to Germany to heal among the places and people that constituted her roots. She went off to Scotland for solitude among the wilds of that magnificent country. She wore black all the time. And...she acquired a handsome and burly Scotsman to be her personal assistant/companion. This gentleman, to the court's royal chagrin, would play a very important role in her life.~

MRS. BROWN, a dramatization of the relationship between Queen Victoria and her ever faithful Scotsman Mr. Brown, is an elegant and beautiful telling of their story. The one and only Judy Dench plays the Queen, and the ineffable, wild and eccentric Billy Connolly plays Brown. Together they tell a tale of tenderness and loyalty and of one man's complete devotion to the Queen he served and of *that woman's devotion to him*.

November Luncheon Thursday 11/17 at noon.
